

CDW Healthcare Offers Special Technology Point of Care Savings Exclusively for Premier members!

Save up to 50% for a limited time

CDW Healthcare has successfully delivered savings and customized IT solutions to Premier members for over seven years.

From January 4 through March 31, 2010, specific Point of Care products and/or services will be available to you as a Premier member at **exclusive discounts!**

CDW Healthcare knows that when it comes to Point of Care (PoC) technology, "one size does not fit all." It's also critical to consider which hardware technologies are compatible with the most commonly used, industry-standard PoC applications. No matter which software application your healthcare organization chooses, CDW Healthcare can recommend a certified PoC hardware solution to meet your needs. That's because we offer more than 100,000 products from 1000+ manufacturers. We'll work with you to combine the optimal mix of hardware, software and services to meet your hospital's specific I.T. and budgetary requirements.

CDW Healthcare PoC exclusive offers:

- Services
- Mobile carts
- Wall-mounts
- Tablets and notebooks
- Thin clients
- PC desktops
- Keyboards and mice
- Input devices and printers
- Wireless communication devices
- Displays

"In our IT department, everyone wears two or three hats. That's why it was so important for us to partner with a solutions provider like CDW Healthcare, who could offer us Point of Care products such as laptops and carts to server, storage and archiving technologies for the data center. Their end-to-end offerings and outstanding service level provided the support I needed to ensure a successful rollout."

— *Mike Homchenko, Manager of Information Technology,
West Virginia University Hospitals*
