## The Indiana Center for Assisted Living (INCAL)

The Indiana Center for Assisted Living (INCAL) is the assisted living entity of the Indiana Health Care Association (IHCA). Representing a broad range of assisted living facilities in Indiana, INCAL includes a diverse mix of different ownership structures, sizes, scopes, locations and service arrays. INCAL provides information, education, consultation and advocacy to members, including regulatory guidance on all of the issues of interest to assisted living and residential care providers throughout the state.

INCAL members are entitled to receive full IHCA membership services, as well as the services of the American Health Care Association (AHCA) and its assisted living partner, the National Center for Assisted Living (NCAL).

## INCAL WORK AGGRESSIVELY TO PURSUE FOUR MAIN PRIORITIES:

---

To provide thought leadership on assisted living issues in light of trends in the long term care industry;

---

To monitor and influence legislation and rulemaking associated with assisted living;

---

To provide ongoing information and education on regulation that affects members; and

---

To collaborate closely with AHCA-NCAL, and to utilize national resources to benefit INCAL members.

INCAL is currently one of ten "Tier 1" state affiliates designated by NCAL to receive additional national support in a variety of member service areas.
