

Ready For A Ca\$h Explosion?

Thousands of Dollars In Tax Credits Are Waiting For You!

Tens of thousands of dollars in tax credits are just waiting to be claimed by your healthcare facility and your employees. A new national tax-credit service, available exclusively through **NES**, will put cash in your hands!

No Risk!
No Upfront Cost!

800-966-6637

Healthcare facilities can receive up to \$240,000 per year or more!

Did you know . . . that your healthcare facility is entitled to tax credits for hiring entry-level employees? Billions of dollars go unclaimed each year.

Through business development tax credit programs, we can bring tens of thousands of dollars to your healthcare facility, including: hospitals, nursing homes, and assisted living facilities.

We also can put money directly into the hands of your employees through the IRS Earned Income Credit Laws.

In most cases, you are able to in-

crease a qualifying employee's take home pay by as much as \$130 per month, with no cost to you.

Finally, our Voluntary Benefits program enables you to provide more benefits choices to all employees. You now can offer disability/accident insurance, critical illness insurance and life insurance without impacting your benefits budget.

Here's the best part . . . There is no upfront cost for our services, as we are paid upon consignment a percentage of the credit you receive.

National Enrollment Services

Inc.

AN **NFP** COMPANY

Dear Friends In Healthcare:

I'd like to tell you about a new service being offered through **National Enrollment Services** that will enable you to put tens of thousands of dollars right to your bottom line through our corporate tax credit program. In addition, you can increase your employee's take home pay by as much as \$130 per month and provide employee insurance benefits that you couldn't previously afford.

Our program enables you to participate in three exciting programs:

Employer Tax Credits: If 10 to 100 of your employees qualify during the year for one of our Tax Credit programs, your healthcare facility's potential credit is **\$24,000 to \$240,000 per year** or more!

Employee Tax Credits: Your employees can increase their take-home pay by up to **\$130 per month** or more, with no cost to you.

Voluntary Benefits: If you couldn't afford to provide benefits to all employees before, you can now. We offer disability/accident insurance, critical illness insurance and life insurance for just **dollars per week**.

National Enrollment Services has spent the past 27 years helping employers and employees generate millions of dollars through tax credit programs. Benefits like this can only help reduce turnover and improve morale and productivity while helping to attract new employees.

So, you as an employer have the choice to either do nothing and walk away from an untapped source of income for your hotel and your employees, OR you can let us communicate, qualify, enroll and complete all necessary paperwork on your behalf. We will identify and maximize the tax credits to which your company and employees may be eligible.

For more details on how you can participate, please call me at **(800) 966-6637 x239**, or email me at **Labow1nes@aol.com**
