Indiana HFAs & Social Workers can earn 3 CEUs

Does your staff understand how QAPI coordinates with QA? Are your stakeholders engaged in the improvement process? Does your staff understand how person-centered care drives quality and satisfaction? Is data driving your decision making around quality or are you still reporting raw numbers and guessing? Have you provided successful education to your leadership at all levels in the facility on conducting a root cause and analysis? Do your line staff know what to expect during a survey and are they ready?

This interactive workshop will answer these questions and provide education to assist your facility in truly understanding QAPI and the implementation of the QAPI requirements of participation. Useful policy samples and tools will also be distributed to all attendees.

Speaker: Lori Davenport, Director of Regulatory Clinical Affairs, IHCA
