Why participate in the Silver Quality Award Program?

At this level, applicants continue to learn and develop effective approaches that help improve performance and health care outcomes.

In addition to the Organizational Profile, applicants provide a thorough assessment of their systematic approaches and the deployment of these approaches. The Silver program provides a clear pathway for recipients moving to the Gold – Excellence in Quality Award

AHCA/NCAL research has demonstrated that Silver and Gold recipients have superior performance in **lower rates of readmissions & antipsychotic use, higher 5 star ratings, and higher average occupancy rates**

The demands of the Quality Award criteria prepare providers for CMS' impending QAPI program. Participants will receive AHCA/NCAL Quality Award program information along with important deadlines and tools and tips for completing the Silver Quality Award application process.
