

LIFE SAFETY CODE WORKSHOP

June 15, 2018 Indianapolis

Don't Get Burned on Your Next Survey! Know the 2012 Life Safety and Health Care Facility Codes

In July of 2016, CMS adopted the 2012 NFPA 101 - LSC and the 2012 NFPA 99 - Health Care Facilities Code (HCFC). Is your facility on board with what's changed? The revised survey includes over 50 new K-tags, new surveyor forms and numerous changes to the survey process itself. Designed specifically for long term care, this seminar will provide a comprehensive overview of changes to the survey process and clarify code requirements. Using real life examples and survey scenarios you will explore how these codes apply to nursing homes, discuss code changes and the increased inspection, testing and maintenance (ITM) requirements, and review common violations.
